## GOOD NEIGHBORS AND NEWS

Argentina's headline role of the last few days raises a few questions of hemispheric good neighborliness usually neglected in the merely political approach. Chiefly, it raises the problem of news coverage in the South American field.

Citizens of the United States are anxious to comprehend what is happening in one of the most important South American governments. Judged by the snap reaction to the story of the revolution and the wishful interpretations of Gen. Arturo Rawson's emergence as head of the country—interpretations which had to be discarded within a few hours when Gen. Rawson was supplanted by Gen. Pedro Ramirez, this country was over-anxious to find in the revolution something that may not have been there.

One of the first obligations of a good neighbor policy is to make a conscientious attempt to understand what is happening before jumping at conclusions. This entails possession of more information than was available about Argentina and more information than usually is available about the internal affairs of Latin American governments. Before the good neighbor policy can be brought to complete fruition, the groundwork laid by the pioneers who linked the news coverage of the American continents within the last quarter of a century will need to be expanded enormously. There is no truth in international relations more patent than the necessity for full exchange of reliable information.

## THE ZOOT, NOT THE SUIT

Americana 1943, when compiled, will reserve space for the Los Angeles revolt against zoot suiters. It was led, apparently, by service men whose patience had been worn out by the antics of the young men who choose to identify themselves by this bizarre costume. A number of them were disrobed, and all who were abroad at the time were terrorized. Fortunately, no one was injured seriously in what amounted to civil riot.

It is the zoot, not the suit, that irritates. The suit has become the badge of a type of young male always unwelcome with us. If memory serves, they have been called shels, lounge lizards and play boys, all during the 40 years of this century. Their costumes at other times have been checkered waistcoats and bell bottom pants; the costumes change, but their role remains the same. They are the young men who invite suspicion of misbehavior.

In the absence of direct evidence to the contrary, it must be assumed that most of the zooters outgrow their foibles and finally dissolve into the general averages. They become paunchy middle-aged men longing for their cut-up days. In fact, some of the anti-zooters today may have prodded an urge to violence when they, as youths, were addicted to extreme costumes and the behaviors that made the costumes appropriate.

## NEW DIPLOMATIC TECHNIQUE

Admiral William H. Standley, who has been reported seeking relief in his post as ambassador to the Soviet Union because "visiting firemen" seem to be more important, may be the accidental victim of a new diplomatic technique.

Airplane travel has made it tempting and feasible to conduct diplomatic relations on a personal contact basis, as illustrated by the meetings between President Roosevelt and Prime Minister Churchill. The ambassador on the scene has lost some of his former importance. Thus, Ambassador Standley, capable as he undoubtedly is, cannot take the pace of a Joseph Davies on a confidential presidential mission. Nor could he substitute for the special performance by Wendell Willkie, another flying encounter that is believed to have disturbed Ambassador Standley.

In the post-war dawning airplanes now common, perhaps something should be included about diplomatic possibilities. When the head of one government has something to talk about with the head of another government, he will order his stratosphere plane and either get aboard himself or send a flying envoy, with orders to be back next day in time for lunch.

## THE STARS SAY:

For Friday, June 11

An exceptionally active and eventful day in which all the affairs, both business and personal may be pushed on to desired objectives, not only by astute and clever manipulation but by sheer force and determination as well as hard work. There may be some obstruction or delay to dispose of before real benefits materialize. The social or romantic elements are strong and should be cultivated to effect cherished objectives or ambitions. There may be very pleasant and active social or sentimental celebrations.

If It Is Your Birthday

Those whose birthday it is may anticipate a year of unusual activity and movement in all the relations both business and private. All pertaining to business, travel, agencies, writings, art and finances may be keyed to high gear, and should attain successful results both by shrewdness and sagacity as well as sturdy and faithful labor and determination. The element of friendship or social prestige may be utilized with success. In romantic or love interest there should be convivial festivity or celebration.

The War Today  
By DEWITT MACKENZIE

Whether the volcanic island fortress of Pantelleria has been occupied by Allied forces, as is rather vaguely reported in some quarters in London, the fact remains that the preliminaries to invasion not only of this small isle but of Europe as a whole already are under way.

Just as in the case of an offensive by an army on land, intensive bombardment of enemy positions precedes the zero hour when the men swarm "over the top". The more thorough the advance preparation, the easier and less costly the final assault.

So we are in process of ironing out the Axis, and in this sense the invasion of the continent actually is under way.

However, I think we shall do well if we don't let our blood pressures run too high in anticipation of quick results in the larger fields.

It should be remembered that the liabilities are likely to be much greater in amphibious offensives than in attacks carried out entirely on land. Landing operations may entail a terrible loss of life, ships and materiel unless most careful preparations are made. That fact undoubtedly will be a great factor in guiding the plans of the Allied high command.

Of course, the possibility of a considerable lapse of time before major invasions occur doesn't necessarily mean that we shall not see some fairly quick action. It's possible that Pantelleria and Lampedusa and even the bigger Italian islands of Sicily and Sardinia might come under assault by landing forces at any time. Still, it seems fairly obvious that the Allied command is proceeding methodically and doesn't intend to be rushed.

British Prime Minister Churchill says "It is evident that amphibious operations of a peculiar complexity and hazard on a large scale are approaching." That's good news, and not unexpected, but you will note that he doesn't say when the zero hour will be. That storm may be a tiny cloud-dot on the horizon as yet.

Probably the prime minister doesn't know when the major action will take place. It must depend on developments. It might come quickly and it might drag on for months.

Just to illustrate what I mean, probably a great deal will depend on what happens along the Russian front. If Hitler should launch a great offensive suddenly, that might easily send the Allied invasion machine into high gear. We then should have the all highest between two fires. In other words, while the Allied strategy is directed along very certain lines, the hour to hour tactics of the fighting front must be controlled by circumstances.

So far as concerns Pantelleria, that small but powerful Italian fortress stands right in the middle of the narrow channel between Sicily and the African mainland. It must be knocked out before Allied shipping can operate freely in those waters for the larger operations. Lampedusa, which lies not far from Pantelleria, also is a thorn in the side of water-borne traffic, although in a less degree.

## HEARING AIDS IN DIAGNOSIS

Stethoscope Invaluable to Physician

BY LOGAN CLENDENING, M. D.

In previous articles this week we have been discussing the methods of diagnosis in which the physician depends upon his own senses to gather information—seeing, feeling,

Dr. Clendening will answer questions of general interest only, and then only through his column.

and hearing. The first two we have covered; today we take up hearing.

When the physician places the middle finger of one hand on your chest or abdomen and taps it with the middle finger of the other hand and when afterwards he takes out his stethoscope and puts the ear pieces in his ears like an old-fashioned phonograph and the bell of the stethoscope on the heart or lung he is observing a long, historical tradition in medicine.

The first act, called percussion, was introduced in the middle of the eighteenth century (1761) by an Austrian physician, Leopold Auenbrugger. When Auenbrugger was appointed to the medical staff of the Vienna hospital, he found that the saying which was popular in his day: "How difficult it is to learn about diseases of the chest" was all too true.

He had a patient who died and at the autopsy they found that the chest was half full of fluid, which he had never suspected during life. And then he remembered his boyhood when his father, who was the host of an inn on the Italian border, would determine how much wine there was in a wine cask by slapping the sides of the cask from above downward. He obtained a hollow note where the cask was empty and a dull note where the wine began. Now the wine cask was something like the chest; it had stiff walls and they were opaque. The condition of the wine cask, half full of wine, was like the condition of Auenbrugger's patient, whose chest was half full of fluid.

Discovery of Percussion  
He tried on other patients to find out whether he could determine the presence of fluid by tapping the chest with his fingers and found that he could. Of course, we have extended Auenbrugger's method of percussion greatly; not only can we determine the presence of fluid in the chest, but different amounts of infiltration of solidity into the normally aerated part of the lung, as in pneumonia and tuberculosis.

The method of percussion was not much taken up for about fifty years until Napoleon's brilliant physician, Corvisart, came across one of Auenbrugger's little books and re-introduced the method into practice. This was very exciting in the brilliant intellectual atmosphere of France early in the nineteenth century and a young Breton, Dr. Laennec, who had a large service of patients at the Necker hospital in Paris, was thinking about some of the ways by which he could make an exact diagnosis of chest diseases through the sense of hearing.

Invention of Stethoscope  
One day he saw some children playing on a see-saw. One would put his ear to one end of the see-saw and another would scratch a message with a pin on the other end. Laennec conceived the idea that if he had a hollow tube and placed one end in his ear and the other on the patient's chest, he could hear many sounds, and so the stethoscope was born. It is one of the three most valuable instruments which the physician uses even today; the other two being the thermometer and the watch. With

the stethoscope we can hear the sounds of the heart and of the lungs and determine whether they are normal, and if abnormal, in what way.

EDITOR'S NOTE: Dr. Clendening has seven pamphlets which can be obtained by readers. Each pamphlet sells for 10 cents. For any one pamphlet desired, send 10 cents in coin, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendening, 235 E. 45th St., New York. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

## Greenford Grange Honors Departed

GREENFORD, June 10.—A memorial service for members who have died in the past year was held at Greenford grange Tuesday evening. Mrs. D. R. McConnell gave the address. Music was furnished by the newly organized young people's chorus. Three members were on the departed list, Joseph Yaeger, Fred Dively and Guy Sigle.

At the next meeting of the grange June 15 the service honor roll will be presented to the grange during a candlelight service. On the honor roll are Frederick A. Bruler, Norma Ewing, Chas. A. Maxwell, Paul Cook and Carl Kappler. All relatives and friends are invited to attend the service.

Confirmation Class  
The confirmation class of Lutheran church will be taken into the church Sunday morning. There are four boys and three girls in the class.

Mrs. Joe Less is in the Salem Clinic with a badly cut arm caused by falling through a window when cleaning house.

Anise Feicht has returned home from the Salem City hospital and is doing well. Larry Bennett, son of Mr. and Mrs. Donald Bennett, received a badly burned hand from an exhaust pipe on his trailer.

Mr. and Mrs. Otto Elser, Mrs. James Green of Woodworth, Mr. and Mrs. Otto Luplow of North Lima were guests Saturday evening of Mr. and Mrs. Harold Feicht.

Visiting at the home of Mr. and Mrs. C. W. McDowell are Lorena V. Lucas and Sara McDowell, of Tyrone, Pa.

Mr. and Mrs. R. D. Young of Youngstown visited at the R. C. Dumbough home recently.

Mr. and Mrs. Robert Slagle and daughter, Mrs. Lottie Slagle, Mrs. Chester Pettit and daughter Ellen and Leland Seiple enjoyed a wiener roast at the cottage at Lake Seaview Sunday evening.

JOHNSTOWN, Pa.—The achievement of the Argentine mother, lately publicized for giving birth to a third consecutive set of twins, was duplicated years ago by Mrs. Luke Ivory, of nearby Cresson, who took in 1932. Married at 18, she had four children before she reached 30, then produced three successive sets of twins.

# THAT MAN IS MINE *by May Christie*

**SYNOPSIS**  
Ann Foster, salesgirl at "Mark's Park Avenue" in New York City, is transferred to the Miami Beach branch of that store, where the manager, impressed with her unusual beauty, engages her as a model. Julia, her practical-minded sister, an airline stewardess on the New York-Miami run, persistently encourages her to marry millionaire Vince Ogden, but Ann does not love him. At Mrs. Avery Willard's War Relief Tea, Ann meets Jim Brent, handsome pilot officer, engaged in training cadets at a nearby airfield. From Vince she learns that Jim is teaching Lotus Willard to fly her own plane and the consensus is he will supplant Hank Brugger, society hanger-on, in the frivolous Mrs. Willard's life. Plotted by Vince and Hank, Ann sells lottery tickets on a beautiful gown donated by her store. Later, dancing with Jim, she is aware they are mutually attracted but senses a certain aloofness in him. Vince wears the gown and presents it to Ann who, overhearing a disappointed dowager's catty remark, announces she will react to the gown for the War Relief. Vince outbids everyone — this time giving the gown to Julia. The tea over, he invites the crowd to dine aboard his yacht, "The Pelican." Ann declines, pleading a headache. Alone in her apartment after Julia's departure, she regrets her hasty decision, especially since learning Jim has accepted Vince's invitation.

**CHAPTER EIGHT**  
Sitting on her now moon-flooded balcony, Ann felt curiously solitary and blue. Regretted her pride and her mistake. They'd all be enjoying a royal dinner in the salon of the Pelican. Whom, she wondered, was Jim seated with? Mrs. Avery Willard? Or Julia? A penny half-hour slipped by. Ann couldn't stand it anymore. She obeyed a sudden urge to drive her funny little car the half-dozen blocks to 23rd Street on the Beach, which was the starting point of the night tour round Biscayne Bay, and get aboard a small sight-seeing launch that would pass near the Pelican.  
Loaded with sight-seers, the small craft finally headed in the moonlight towards Vince's yacht. "Ahead of us," announced the baker-guide, "is the yacht of Mr. Vincent Ogden, bequeathed to him by his late father, the famous turtle-soup king!"  
As they neared the yacht, Ann drew into a dark corner of the deck of the Pelican. The flood-lighted deck of the Pelican looked like a gay stage. Men and women, handsomely attired, and most of them in evening clothes, promenaded. "Gee, Bill," sighed a shabby young girl to her boy-friend, near

## FARM LABOR HELP APPEAL GOES OUT

### County Registering Men, Women, School Boys to Relieve Shortage

Plans are being developed for partially relieving the farm labor shortage in Columbiana county, according to County Agent Floyd Lower, who heads the farm labor work in the county.  
The work is being done in co-operation with the U. S. Employment Service and with other federal agencies and the grange and Farm Bureau.  
It will be impossible to provide all of the hay and grain harvest labor needed and all of the monthly labor needed to locate farm hands as well as persons who can do day labor on the farm. A number of farm hands to work by the month have already been placed.  
Farmers who are in need of help are being asked to file their requests with the office of the Agricultural Extension Service in the court house in Lisbon. An effort will be made to fill the requests but no promise can be made that the needed labor can be supplied because of the extreme shortage, according to Lower.  
High school boys and girls are being registered for farm work most of which will be for seasonal day labor but there are a few who are available for monthly labor on the farm. Non-farm women are also being asked to enroll even if but for a day or two each week to assist with farm work or to do housework in rural homes to relieve the farm woman to do field work.  
Representatives of the County Extension Office registered persons for farm work in Leetonia and Washingtonville Tuesday. Registrations will be held in all the other cities and villages of the county within a few days. A committee chairman is being appointed in each city and village. Permanent registration centers will be established.  
Workers are now needed in some parts of the county for strawberry harvest which will begin next week.  
It is estimated that 1000 pickers will be needed for raspberries in Middleton township each day beginning about July 1.  
Weeding and harvesting of vegetables, picking peaches, and apples, cutting corn, picking potatoes, and husking corn are other seasonal jobs ahead for which labor will be needed.  
Hay harvest is scheduled to begin next week to be followed by grain harvest both of which will require many day workers throughout the county.  
The County Agricultural War Council, composed of representa-

tives of all farm agencies, organizations, and groups in the county, at its meeting in Salem on Monday night, requested both the county and state highway departments to make available for farm work power mowers which might be used for cutting hay.  
The council also urged that farmers try to make an early start in hay making in order to spread out the peak labor period and urged exchange of labor between neighbors as well as exchange of labor for machinery.

## June Meetings Are Enjoyed By Five Methodist Groups

The June meetings of various groups of the Women's Society of Christian Service of the Methodist church were held yesterday afternoon.

Twelve members of Group 1 enjoyed a coverdish birthday dinner at the church with Mrs. J. E. Bentley as chairman.

Mrs. Frank Ballantine had charge of the devotion and Mrs. T. V. Corrigan had charge of the program, which included a quiz contest and baby picture contest.

Mrs. Lester Koenreich will entertain the group July 14 at her home on E. Pershing st.

Mrs. D. H. Rummel, president of Group 2, presided at the group meeting at the church, at which time plans were discussed for the general organization picnic, to be held some time in July.

## Mother Club Meets At Hochadel Home

Plans were completed for an installation dinner at 6 p. m. June 22 at the Salem Country club when members of the Progressive Mothers club met last evening at the home of Mrs. John Hochadel on Homewood ave.

The president, Mrs. Richard Wilson, had charge of the business session, at which time Mrs. Hochadel, chairman of the entertainment committee for the dinner, announced that Mrs. Guy Byers would give a book review.

Following the dinner officers will be installed. They are: President, Mrs. Blair Curry; vice president, Mrs. E. F. Kieffer; secretary, Mrs. Donald Reichart; treasurer, Mrs. Ray Dean. Miss Hazel Linn, executive secretary of the Red Cross, will present certificates and pins to members who have completed a home nursing course taught by Mrs. John Lewis.

Mrs. Curry named Mrs. Lowell Brown as program chairman for the coming year, to be assisted by Mrs. A. M. Chandler, Mrs. William Green and Mrs. E. F. Kieffer.

A handkerchief shower was presented to Mrs. L. L. Russell, who is leaving soon to make her home in Lucasville. Refreshments were served by Mrs. Hochadel.

## Birthday Party Is Enjoyed

Mr. and Mrs. John Stoita entertained 15 guests last evening at their home on Washington ave. in honor of the 15th birthday anniversary of their son, John.

Games and dancing were enjoyed and refreshments were served by the hostess, assisted by Miss Helen Cosgarea. Robert Hisey of Columbiana was a guest.

## ONE COAL DIVISION MAKES COMPROMISE

Group of Appalachian Operators Agree to \$1.30 Wage Boost

(By Associated Press) WASHINGTON, June 10.—One group of coal operators broke from the deadlocked Appalachian joint wage conference today and made a separate peace with John L. Lewis and his United Mine Workers.

The agreement, between the Central Pennsylvania Producers' association, employing about 65,000 men, and the U.M.W., was reported to call for a wage boost of \$1.30 a day for underground travel time. Lewis originally sought \$2.

This sudden development tossed more confusion into the already complicated wage negotiations, which were described by both the operators and Lewis as "farical". Each side accused the other of being too stubborn.

The piecemeal pact was affirmed last night by both Lewis and Charles O'Neill, spokesman for northern operators, who in this case was acting only for the central Pennsylvania group which operates in the clearfield belt.

WLB O. K. Needed Lewis said he was ready to offer the same terms to the other operators, employing 450,000 men. The labor chieftain said he believed they would accept unless "there is political and financial interference with the producers of coal of larger tonnage". He didn't explain this statement.

The separate agreement must be approved by the War Labor board, which called a public hearing today on all the phases of the entire row. Lewis, who has ignored the WLB, conceded the settlement was subject to "all properly authorized government agencies." With WLB approval, the pact could form a basis for general peace in the coal fields, disrupted twice by walkouts in recent weeks.

One obstacle, affecting every consumer of coal, stood in the way of final settlement. Lewis said the Pennsylvania pact was contingent "on necessary approval of prices permitting the agreement to become effective." In other words, the operators consent to hike wages if they can get more money per ton.

It is understood that underground travel time was reckoned by O'Neill and Lewis at \$1.50 day for inside men. By giving outside workers the benefit of any raise, the overall average per man would be brought down to about \$1.30, informed sources said. Outside men constitute from 10 to 20 per cent of the total employees.

## Tulsa, Okla., Mother Is Acquitted In Shooting

TULSA, Okla., June 10.—Freed yesterday in the fatal shooting of Mrs. T. Karl Simmons, wife of the wealthy Tulsa oil man who had given her diamonds and money, Mrs. Ella B. Howard dried her tears and said she plans a quiet life with her two children and her mother.

She wept as the jury verdict was returned last night after an hour and 50 minutes of deliberation. It ended a day of tense drama in the manslaughter trial of the 44-year-old Fort Worth divorcee.

During the day Mrs. Howard had told of her struggle with Mrs. Simmons in a room of the swank Mayo hotel on March 25—a struggle that ended in the death of the Tulsa woman.

Simmons, from the witness stand, had admitted giving Mrs. Howard \$20,000, diamonds and other gifts, "because I wanted to".

## AIR FIGHTS MARK RUSSIAN CAMPAIGN

Aerial Clashes Seen As Prelude to 1943 Land Offensive

(By Associated Press) MOSCOW, June 10.—Increasingly vigorous air battles were reported today from widely separated points of the front as the German air force and the Soviet plane fleet continued to fight it out in a prelude to a 1943 land offensive.

Dispatches from Bataisk, 10 miles south of Rostov, disclosed that air fighting had flared up again in the Don river valley. The vicinity of the city and the mud flats of the Don have become a cemetery for downed Junkers and Heinkel planes. It was reported, with anti-aircraft batteries scoring heavily.

The news of the Don Basin aerial war came on the heels of German raids on the Volkhov front 60 miles southeast of Leningrad, where 24 German planes were reported shot down. From 150 to 160 German planes were declared destroyed in Russian bombing raids on German airdromes Tuesday night. The Russians said they lost 26 planes in the engagements.

Land action played a minor role. The Soviet midnight communiqué said about 200 Germans were killed and guns, observation posts and an ammunition dump were smashed on the Smolensk front, while German positions were bombarded and a company of Germans was killed in fighting around Lisichansk, where the Germans have attempted to pierce Soviet positions on the Donets river.

Pick C. of C. Trustees COLUMBUS, June 10.—Joseph W. Fichter, master of the Ohio State grange, and George Durham of Cleveland, vice president of the Wheeling & Lake Erie railway, have been elected to the board of directors of the Ohio Chamber of Commerce.

## FIGHT SHAPING UP AGAINST SUBSIDIES

Senate Banking Committee Calls OPA Heads For Questioning

(By Associated Press) WASHINGTON, June 30.—A legislative battle to shut off subsidy payments on most agricultural products shaped up rapidly in congress today as a senate committee endeavored to uncover the extent of the administration's program to roll back food prices.

Summoning officials for questioning on commodities to be affected, the senate banking committee expected to get its first peek at a food list which some members predicted would be a long one.

Senator Taft (R., Ohio), critic of the subsidy plan to cut retail prices of butter and meats, and coffee and probably fresh vegetables, expressed belief OPA heads eventually to "take in the whole list of commodities—right down the line".

An apparently rising temper in some congressional quarters against the price cutbacks and payment of subsidies to compensate for decreased returns was regarded by opponents as certain to bring efforts to prohibit all such payments without sanction of congress.

The controversy, previously confined to committee rooms, broke out on the senate floor yesterday and brought announcement from Taft that he would offer new legislative restrictions against subsidy payments.

## Scrap Rubber Collection Discontinued In State

COLUMBUS, June 10.—The collection of scrap rubber was dropped today from Ohio's general salvage program.

Robert O. Weible, state executive secretary of the War Production board's general salvage section, said that "in view of the large tonnage of scrap rubber now available, due in great measure to the activities of our volunteer salvage workers and the splendid response of the citizens of Ohio who met this most vexing problem and solved it in such a satisfactory manner, we are now able to suspend this program and concentrate our efforts on scrap iron, tin can, waste kitchen fats and other salvage programs."

## Rumor Sends Cleveland Motorists To Stations

CLEVELAND, June 10.—A rumor that the value of "A" gasoline ration coupons would be cut to one-and-a-half gallons at midnight caused Cleveland motorists to flock to service stations last night.

No cut occurred but cars were lined up before many pumps.

Several establishments remained open after the usual closing hour and many operators reopened their stations.

## U. S. WILL STEP UP GERMAN BOMBINGS

8th Air Force To Carry Full Share of Offensive Operations Soon

(By Associated Press) LONDON, June 10.—Germany's bomb-frenzied nerves received a new jolt today with the official disclosure that great fleets of American heavy bombers, doubled in strength since March, will carry their full share of the aerial offensive against the Reich this summer.

In London, Maj.-Gen. Ira C. Eaker, commander of the U. S. 8th air force, said the Americans would strike with multiple daylight raids synchronized with the British mass raids by night, and would approximate the RAF's huge bomber strength by the end of summer.

Gen. Eaker said U. S. fighter and medium bomber forces also were growing rapidly and would be ready to play a full part in supporting an allied invasion of Europe.

In May alone, he said, more than 1,600 American heavy bombers raided the continent and dropped 5,600,000 pounds of explosives on 19 targets. Sixty-two of the big planes were lost, but they shot down 359 enemy aircraft and probably destroyed 93 more.

The losses were under four per cent.

## BYRNES RECEIVES NEW TAX PROPOSAL

WASHINGTON, June 10.—The treasury was reported reliably today to have presented to War Mobilization Director James F. Byrnes a comprehensive program to raise the \$16,000,000,000 in additional revenue requested by President Roosevelt as a check against inflation.

The treasury program was said by informants, who withheld the use of their names, to center on a spending tax and to include suggestions for increasing individual and corporation income taxes and new excise levies.

## Legislators Return For Final Session

(By Associated Press) COLUMBUS, June 10.—The 95th general assembly meets today for what is expected to be its last working session.

As the legislators returned after a 12-day recess leaders expressed hope final action could be taken today on the four important bills remaining on the calendars.

Even if business were completed in one day, final adjournment probably would not come for more than a week when a skeleton session would be held for presiding officers to sign approved bills.

The major bills approved in some form by both branches but awaiting concurrence in conference committees provide for the biennial appropriation, sundry claims, increased unemployment compensation premiums for war industries and aid to weaker school districts.

The appropriation measure agreed to by conferees was said to provide a total of \$369,034,569, about \$700,000 less than the budget submitted by Gov. John W. Bricker.

## HOG PRICE SLUMPS BELOW \$14 LEVEL

**FDA Reaffirms Pledge On  
Maintaining \$13.75  
Market Figure**

(By Associated Press)  
CHICAGO, June 10.—With the average hog price slumping below \$14 a hundred pounds for the first time this year, a representative of the Food Distribution Administration, who asked anonymity, said today the government had "every intention" of holding to its pledge to support the market at \$13.75.

The government support level was announced early this year, but it has never been brought into action because, until this week, hogs have sold well above the minimum. In the first three days this week, however, prices slumped about 40 cents and many head sold yesterday at \$13.80 a hundred pounds. Average price was about \$13.85.

The Food Distribution Administration said the support level was an "average price." Therefore, it said, some hogs sold on any given day would not be permitted to slump below that point. The \$13.75 figure applies only to Chicago, with the support level at other cities based upon the Chicago price.

Traders in the livestock market were puzzled over what supporting action the government would take, if it was necessary. While the FDA could buy live hogs, it would have to turn them over to packers for slaughtering, it was pointed out, as the government has no killing facilities of its own. In that case, the FDA presumably would pay the packers a fee to cover slaughtering and dressing expenses.

A more likely method, it was said, would be an increase in purchases of meat by the FDA, acting for the military forces and lend-lease.

The run of hogs to this market this week has been the heaviest for June in nine years.

## Roly-Poly Porkers Will Lose Figure

(By Associated Press)  
WASHINGTON, June 10.—Trim, streamlined hogs soon will replace roly-poly porkers at the market place.

Such was the forecast made by the Agriculture department today in reporting that prospective supplies of corn and other livestock feeds will be insufficient during the coming feeding season to fatten hogs to extra heavy weights.

Hogs have been going to market weighing 250 pounds and more. Farmers may be asked to start marketing them at weight of 200 to 225 pounds instead. Scientific studies indicate that the most efficient use of feed is obtained by feeding hogs to around 200 pounds.

A reduction in the weights of hogs would mean, of course, a smaller volume of pork, but the reduction would be greater in the case of lard than in meat cuts.

There has been a strong demand for corn and other feeds in recent weeks and shortages of corn have developed in most primary markets, the department reported. Rail shipments have not been adequate to meet requirements of food manufacturers, grain processors and livestock feeders.

## Canton Soldier Cited

SOMEWHERE IN AUSTRALIA, June 5.—Lt. Gen. George C. Kenney, commander of Allied air forces in the Southwest Pacific area today presented the air medal to 39 officers and enlisted men, including Staff Sgt. George C. McClellan of Canton, O., for participating in a bombing attack on Lae, New Guinea, in the face of stormy weather and heavy anti-aircraft fire.

## Rental Incomes Gain

**Under Federal Program**

WASHINGTON, June 10.—Replying to real estate groups who have been petitioning for alterations in rent control, the Office of Price Administration said today that its surveys show that net operating income from rental properties has increased 9 to 17 per cent since rent control was instituted.

OPA explained that people are paying their rent more regularly, keeping rental properties more fully occupied, and accepting less maintenance service, offsetting increased cost of materials and labor.

## Will Accept Women

**CLEVELAND, June 10.**—Erich Leinsdorf, new director of the Cleveland orchestra, announced that women players would be hired for next season and that he was "glad to be able to use some in the orchestra." Except for harpists, the Cleveland orchestra has never before employed women.

## Adopt Time Change

**CLEVELAND, June 10.**—A resolution to restore Cleveland to the hour slower Eastern Standard time from the last Sunday in September to the last Sunday in April was approved by the city council's legislation committee yesterday.

## Grecian Town Wiped Out

**By Nazis, Photos Reveal**

CAIRO, June 10.—Photographs recently smuggled out of Crete indicate that the town of Kandanos on that Grecian island has been wiped out by the Germans in a gesture of reprisal duplicating the destruction of the Czechoslovakian town of Lidice.

The photograph shows a marble slab bearing this inscription: "As a reprisal for the murder of German parachutists by armed men and women, the town of Kandanos has been destroyed."

## REGISTRATION OF AUTOS WILL DROP

(By Associated Press)  
COLUMBUS, June 10.—Wartime restrictions and the induction of automobile owners into military service will cut 1943 motor vehicle registrations five per cent below last year, Cylon W. Wallace, registrar of motor vehicles, estimated today.

Registrations for the first two months of the 1943 license sales period—April and May—totaled 1,861,003, a decrease of 134,046 from the total for the first registration quarter of last year, Wallace said. Revenue from motor vehicle license sales totaled \$25,381,229 for April and May, while anticipated income for June is \$800,000, for a first quarter total of \$26,181,229 as compared with \$26,796,373 for the first three months of 1942.

## Milk Rationing Seen

**Unless Revenue Gains**

COLUMBUS, June 10.—The Ohio Milk Producers' federation declared today milk rationing was imminent in the state unless dairymen receive a substantial increase in revenue.

The federation issued the statement after representatives of major fluid markets met in an emergency session here last night.

"Only a raise in the price paid to farmers for milk in the very near future holds any promise of avoiding an actual shortage and the prevention of rationing within the next few months, since price is the only controllable factor in the picture," the federation said.

## Slayer Must Die

**COLUMBUS, June 10.**—Anthony Treat of Cincinnati must die in the electric chair at Ohio penitentiary June 30 for the rape-slaying of ten-year-old Helen Sellers last Dec. 24.

The execution date was set yesterday by the Ohio supreme court in dismissing Treat's appeal.

## Revenue Agent Retires

## WAACs Immorality Charges Are False, Stimson Declares

(By Associated Press)

WASHINGTON, June 10.—Secretary of War Stimson said today that "sinister rumors aimed at destroying the reputation" of the WAACs through charges of immorality "are absolutely and completely false."

"I refer," Stimson said at a press conference, "to charges of immorality and particularly to the allegation that the War department has agreed to the issuance of contraceptives and prophylactic equipment to the members of this corps."

He added that "anything which would interfere with their recruiting or destroy the reputation of the corps and, by so doing, interfere with increase in the combat strength of our army, would be of value to the enemy. The repetition of any unfounded rumor concerning this corps lessens confidence in it and is actually an aid to the enemy."

The strength of the Women's Army Auxiliary Corps, Stimson said, has reached 65,000, releasing soldiers for front-line duty to the extent of four combat divisions. "As a yardstick," he added, "our combat group force in the Tunisian campaign consisted of just four divisions."

"The authorized strength of this corps is 150,000 and since the objective behind the enlistment of the corps is to relieve able-bodied soldiers for combat duty, you will see that we are speaking now of a sizeable increase in our fighting forces."

The secretary asserted emphatically that any reflection on the WAACs "is in essence a reflection on the whole of American womanhood; for these 65,000 women are a cross section of the womanhood of our nation."

"They are the teachers who taught your children; the wives, sweethearts, sisters and even mothers of the men who are today fighting to save our freedom. When they are maligned, when vicious rumor destroys their reputations, the effects could reach into our very front lines, injuring the morale of the army itself. The story of the Women's Army Auxiliary corps is already a fine chapter in the story of American womanhood."

"I emphasize the fact that I have made a thorough investigation of all these rumors. They are completely false."

## Publisher Denies Song

**Claims of Convict, 24**

CANON CITY, Colo., June 10.—Conflicting claims to the authorship of a hit song prompted an inquiry of Warden Roy Best today into statements of a young convict that he was the author.

The state prison warden reported that Charles W. Forbes, 24, asserted he wrote the song "You'll Never Know," which ranked second last week on a national radio show.

In New York, the music publishing firm of Bregman, Vocco and Conn., Inc., denied the 24-year-old convict was the author. Miss Ada Sax, in charge of copyrights for the firm, said the song was written by Mack Gordon, Lyricist, and Harry Warren, composer, under contract with the firm, for a 20th Century Fox picture.

# U. S. Fortress "Hell's Angels"

## Veteran Of 28 Bomb Missions

(By Associated Press)  
AN AMERICAN BOMBER STATION IN ENGLAND, June 10.—After seven months of big-time combat duty, the Flying Fortress "Hell's Angels" is still going strong with only a few patched-up flat punctures and a lone bullet hole as battle scars from 28 passes at Hitler's Europe.

This is a record unequalled by any sister Fortress in the European theater. Hell's Angels has had to plough through some of the thickest anti-aircraft fire and has fended off Reichsmarshal Goering's yellow nose fighters over such strongly-defended targets as Wilhelmshaven, Kiel, Bremen, Vamm, Vegesack, St. Nazaire, Lorient, Romilly and Paris.

In all 150,000 pounds of bombs have left her racks to churn up devastation in these and other targets.

Sometimes the bombers develop difficulties and have to turn back before getting to their targets—but not once has this happened to Hell's Angels.

All but one of her original crew have completed their operational missions and are now slated for other assignments, and every one of them have lavish praise for the ship which bears the insignia of a grinning, haloed, wing-sprouting cherub on roller skates with a big bomb flung over his shoulder.

Some other stations have dubbed "Hell's Angels" the "luckiest fort-

ress in the European theater of operations." That burns up the boys on this station. "Her flying crew and ground staff just know their onions," they say.

There have been only two casualties among all the men who have flown with "Hell's Angels"—they were lost while flying as substitute crew members in other bombers.

The lone man on this station is First Lieut. Ripley W. Joy, 27, of San Francisco, co-pilot of "Hell's Angels," whose buddies transferred yesterday to another station, presumably in preparation for going to the United States. Joy needs five more missions to complete his combat chores.

Joy had plenty of good things to say about the flying crew and also for the ground crew of "Hell's Angels." The latter included Sgt. Fabian F. Palmer, Mansfield, Ohio, crew chief.

OAKLAND, Calif.—Major Donald Green, 26, home on leave as a fighter pilot in the Southern Pacific, claims to be the world's champion "Short Shorter." He brought with him a five-foot string of English, Canadian, Egyptian, New Caledonian, American, Russian and Japanese bills all signed by more than 100 other "Short Shorters," all members of the aerial force who have a combined 300 Japanese victories to their credit.

## DUPONT HOUSE PAINT Stays White!

### SAVE WITH PAINT

DUPONT House Paint gives you the utmost in protection, because it forms a tough, durable film which guards the surface against rot and decay. And it gives you lasting whiteness, too.

That's because Du Pont House Paint is "self-cleaning"! Like all paints, it collects dirt on exposure to the elements. As time goes on, however, a fine white powder forms on the surface, which is washed away by heavy rains. This powder carries the dirt with it, and exposes a fresh white surface.

This "self-cleaning" process starts after a few months of exposure under normal weather conditions. It may be delayed under unusual climatic or dirt-collecting conditions in extremely sooty industrial communities. Because this "self-cleaning" process is gradual, the wearing qualities of the film are not abnormally affected.

Du Pont "self-cleaning" House Paint, in white and Tru-Tint colors, costs you no more than other good paints.

**DUPONT HOUSE PAINT \$3.19**  
in 5-gallon lots

Because it protects America's war equipment, paint is a vital defense material. Use paint carefully. We will be glad to recommend a reliable painter. We know how to do the job right, how much or how little paint to use. His skill means savings for you—and paint conservation for America.

## HERE IS ONE OF THE BEST BARGAINS IN SALEM EITHER FOR A HOME OR AN INVESTMENT!

Very good brick house located on Broadway, only a half block from the business section and within easy walking distance of the shops. This house is arranged exactly right for the man who wants to live on one side and have office rooms such as a doctor's and still have an income from the other side as each side is entirely separate; each one having their own hot water heating system. Has eight rooms and bath on one side; two smaller apartments each with complete bath on other side. Several rooms finished and floored in hardwood. This house is in excellent condition throughout and is nicely decorated. This is just right for the party who might want to let out light housekeeping rooms. Property could be made to bring in an income of not less than \$100.00 to \$125.00 per month in addition to having a home for yourself. Also has a nice enclosed front porch on both sides. Large lot; two-story double garage.

Now, if you want a property close to the city, close to the shops and a nice place to live with an income, it will pay you to investigate this bargain at once as this property is priced to sell at only \$9,200 when it should be selling for \$12,000.

## Servicemen Barred From City After Zoot Suit Disturbance

(By Associated Press)  
LOS ANGELES, June 10.—Nearly a dozen communities along the rim of far-flung Los Angeles were closed to U. S. seamen, marines and coast guardsmen today after Navy officials expanded their out-of-bounds area in an effort to forestall future disorders between servicemen and zoot-suiters—clashes which have drawn the attention of the State department and the Mexican embassy.

Navy enlisted men—except when armed with special passes—have been barred from Los Angeles since the disturbances reached a climax Monday night, when 50 wearers of long coats and sausage-shaped trousers were dispersed by soldiers and sailors who hold the zoot-suiters responsible for recent alleged beatings, robberies and indignities inflicted upon servicemen.

Outbreaks had dwindled to isolated cases in outlying areas last night, police reported.

**Mexicans Predominate**  
Mayor Fletcher Bowron declared in a radio address that local governmental authority has not broken down.

Gov. Earl Warren, from Sacramento, urged law enforcement officers, citizens and service men to join in a movement to quell street fighting in which 500 zooters and service men have been jailed and

some 150 persons have been injured in the past few days. The majority of the zoot-suiters arrested, police records show, have been youths of Mexican descent.

Mayor Bowron said the State department informed him yesterday its attention had been called to the situation by the Mexican embassy in Washington, after the embassy had received a report from the Mexican consul-general here.

The mayor said he replied: "The law is going to be enforced and the peace kept. There is no question of racial discrimination involved. We have here unfortunately a bad situation as the result of the formation of activities of youthful gangs, the members of which, probably to the extent of 98 per cent or more, were born right here in Los Angeles."

City council adopted a motion asking the police commission to report on the situation, including a suggestion by one councilman there should be a city ordinance banning zoot suits.

**ALAMOSA, Colo.**—There probably will be a good deal of confusion on the ranch of Mr. and Mrs. Eli Rael of Alamosa when their triplet girls grow up. The three baby sisters, born early this month were named Maria Teresa, Maria Rosalina and Maria Solome.

## BELOIT

Miss Gladys Giesch will entertain the Dorcas class at her home in Westville June 18. This announcement was made when the class was entertained at the home of Mrs. Harold Paulin Friday evening. Mrs. Willard Yengling of Glendale, Calif., and Mrs. Bertha Paulin of Alliance were guests. The meeting opened with group singing of "I Would Be True." Mrs. Homer Lee conducted the devotional period and Mrs. Yengling gave a talk. Mrs. Clyde Early who is moving to Alliance was presented a gift in behalf of the class.

A spelling contest was a feature of the entertainment, which was conducted by Mrs. Louis Williams and won by Mrs. Virgil Hoffman. Lunch was served by the hostess, assisted by Mrs. Eva Reichenbach at a table with a bouquet of pastel colored flowers and pink candies as the center piece.

Ensign and Mrs. D. Eugene Boster of Chicago spent the weekend with his mother Mrs. Nellie Boster. They also visited with the parents of Mrs. Eugene Boster, Mr. and Mrs. W. D. Shirts of Hudson. Ensign Boster has just returned from

serving a period of sea duty of two months on the Atlantic coast. He is on the staff of the Abbott Hall Midshipmen school in Chicago.

Mrs. Lyle Bedell entertained the T. E. B. club at Naylor's Crossing Thursday evening. Mrs. Louis Williams and Mrs. Elmer Gednetz were guests of the evening. Prizes were won by Mrs. Rex Israel and Mrs. Charles Best. The club will be entertained at the home of Mrs. Charles Best June 17.

Mr. and Mrs. Glenn Turner and daughter Judy have returned home after a visit of ten days with relatives at Buford.

Mrs. Wallace Sanders and son

Wallace and Richard Jones of Sebring were at the Children's Clinic in Canton where Wallace, Jr., received treatment.

Mr. and Mrs. Clyde Early have moved to Alliance where they recently purchased a new home.

Mrs. Charlotte McBride returned home Monday after a ten day visit in Orwell.

Mrs. Laura Bartges who has been in the Alliance City hospital for ten days has returned to her home and is recovering.

Mrs. Vera Morley and daughter Ruth Ann returned home Saturday after having spent two weeks in New York with Mr. and Mrs. A. N. Morley.
